

# Preparation Instructions

Print in color on white cardstock. Laminate for durability and cut task cards apart. Provide students dry erase markers and dry erasers. Depending on what building material students will be using, students will need Unifix cubes, Wikisticks and/or play dough.

## QR Code Feature

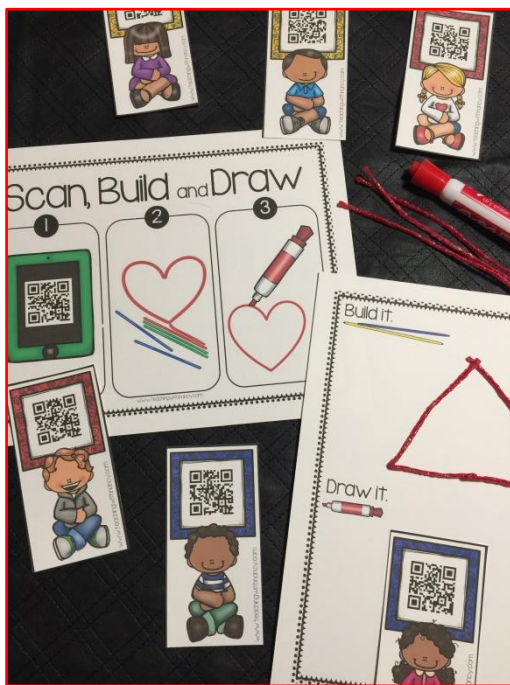

Provide students with a smart device with an app that can scan and read QR codes. If you don't already have a QR code scanner app on your smart device, you may want to download this one <https://goo.gl/nSOaO2> from the iTunes store. It is FREE, easy to use and has no ads.

## How to Use

### Independent Station or Small Group

Place QR code task cards, work mats, shape building materials and dry erase markers at a center. Scan the QR code. Build the shape, then draw the shape 3 times. Repeat for each QR code task card.

**Teacher Tip:** Increase and decrease difficulty by adding or omitting task cards.
